As we approach the end of the year, I am reminded of all that we have accomplished as a chapter.

We have a new Website, new logo, doubled our membership on Facebook, dramatically increased our driving events and most importantly, we have added many new and talented faces on our Board. The new Board members have been instrumental in making the changes that we needed to make for our Club.

Having said that, we still need some more volunteers to help us out. We do need a Webmaster! If you or someone you know may have talents in that arena, please contact Rich Getty at [gettybmw@yahoo.com](mailto:gettybmw@yahoo.com).

Additionally, we would like to see more representation out of Wyoming and Southern Utah. If anyone would like to be an Area Representative on our Board, please contact Rich Getty.

Last year, as great as it was, was simply a spring board to new and better activities for next year. Watch our website, Facebook page, Twitter or post-card for The Street Survival program to come to town as well as new drives and new twists to your favorite activities!

Also, we will be holding our Wide Open Wednesday throughout the spring, summer and fall at Miller Motorsport Park in Tooele.

As I close this brief message, we want to wish everyone a safe and Happy Holiday Season and many thanks for making this Club such a wonderful place to experience our beloved Bimmers and making such great friends.

*With much respect,*

**Welcome to the Wasatch Chapter !!**

**BMW 1 Series M Coupe**

Scheduled to launch in mid-2011, the new BMW 1 Series M Coupe has already stirred up the BMW community and it announces to be the prime candidate in the "Most enthusiastic bimmer of the 2000s" top.

After months of speculations around the naming convention and its existence, BMW recently announced the new M and also the final naming convention: BMW 1 Series M Coupe.

While plenty of secrecy remain around the 1 Series M Coupe engine of choice, rumors have the engine as the same one as in the 135i's - right down to the twin turbos. However, an engine remap and extra boost send power spiralling to around 350bhp. All that grunt in a small coupe bodyshell is contained by a limited slip diff and sticky 245/35 ZR19 and 265/35 ZR19 Michelin Pilot Sport rubber.

Engine is mated to a six-speed manual gearbox—no automatic or dual-clutch transmission will be offered, and according to first journalists to see the pre-production models, the manual shift suits the car very well.

The BMW 1 Series M Coupe is expected to run \$10,000 higher than the 135i Coupe.
